

Bailey the Bear

Needs Help!

**A True Story of Rescue
and Rehabilitation**

by Christy Gove

Bailey the bear cub yawns and stretches on her soft bed of pine needles. The sunlight warms her fur. Bailey loves her home in the forest. It is full of all the right things: trees, food, wind, rain, sunshine, and good smells.

The True Story of a Bear Cub's Rehabilitation

Bailey the Bear loves exploring. But when she gets too close to a road, Bailey is struck by a car! Who will help her?

This true story explains how wildlife hospitals rescue and treat injured animals. Their goal is to release the healed animals back into nature to thrive in the wild. Bailey's story is just such a success!

Bailey the Bear Needs Help! was created with assistance from The Wildlife Center of Virginia. Part of the proceeds from its sale will benefit the Wildlife Center.
